• Model 4

Connect the Power Supply

1. Turn off the printer power.
2. Plug in the cable connector of the AC adapter to the power connector at the rear of the printer.
3. Connect the AC power cord to the inlet of AC adapter, and insert the AC power cord plug into a suitable wall outlet.

Install the Paper Roll

1. Open the printer cover.
2. Remove the used paper roll core, if there is one.
3. Load the paper roll so that the printable side of the paper (thermosensitive layer) is facing to the thermal print head, and note the direction the paper comes off the roll as shown below.

Opening the Printer Cover

Open the printer cover by pressing up one side of cover open lever.

Closing the Printer Cover

Press down the center of the printer cover to close the cover.

4. Pull out some paper roll, and press down the center of the printer cover to close the cover.

5. Tear off any excess paper in the direction of the side of the printer.
